RE: Postmaster General 10 year plan

Dear Mr. Kubayanda,

I am writing in regard to the Postmaster General's 10 year plan for the USPS. This plan will break and destroy the USPS mail system completely. Postal rates would increase and the services will be downgraded even further than the cuts Mr. DeJoy made in 2020 including the dismantling of sorting machines, cutting of hours for postal workers and prioritizing and delaying some postal deliveries. Even today a letter that should take possibly 5 - 6 days has taken more than two weeks. I mailed a card from Snohomish, WA, outside of Seattle to Georgetown, TX outside of Austin, TX, and after two and one half weeks it had still not been delivered. This is unacceptable in the United States.

The people of the United States depend on this service for their communications, medicine and other important deliveries. Please do not approve his plan. Better yet get rid of Postmaster General Louis DeJoy. The Postal Service would be much healthier and in a better position than going back to the "pony express".

Thank you for your consideration.
